J. B. STEWART

MANAGER

Mr. James and Family Leave for Vancouver

Mr. and Mrs. James and their daughter, Muriel, left on Wednesday morning for the coast, where they will in future reside.

Mr. and Mrs. James and the family came to Coleman in June, 1907. For a number of years Mr. James acted as fire boss to the International Coal and Coke Co. He left to accept the position of Superintendent of the mine rescue car, which position he has ably filled for four and one-half years. He resigned his position on the car at the end of October.

He has been a much respected citizen and was a member of the first council in Coleman. He has ever taken a deep interest in the welfare of the town and we are sorry to see him go.

The citizens at large will join in wishing him and his wife and daughter every success in their new home.

On Friday, Nov. 29, the session of managers of the Institutional church met in the manse and after a social hour spent with their guests, Mr. and Mrs. Henry James, presented them, on their leaving Coleman, with a splendid case of knives, forks and spoons as a small token of the high esteem in which they are held by the congregation. The church loses two splendid and valued helpers in Mr. and Mrs. James. Rev. D. K. Allan made the presentation, and Mr. James very feelingly replied.

On Saturday evening the Women's Missionary Society presented Mrs. James with a beautiful Cake Dish as a reminder of the deep affection in which she is held.

The organized girl's club met in the manse on Monday afternoon and presented Muriel James with a handsome brooch.

Postponed Tea and Sale of Work.

The tea and sale of work which was to have been held in the Catholic School on Halloween will be held on Wednesday Dec. 11th, from 3 to 6 in the afternoon, and from 7 to 9:30 in the evening. Tea and refreshments will be served for 20c. A number of useful and fancy articles, suitable for Christmas presents will be on sale also a fish pond for children.

Pythian Sisters Ball December 18th

The second annual masquerade ball held under the auspices of the Pythian Sisters, postponed from Oct. 23rd on account of the epidemic, will be held on Wednesday evening, December 18th, in the Coleman Opera House.

O. E. Whiteside made a business trip to Calgary during the week.

The Thanksgiving Service in the Institutional church on Sunday evening was largely attended. Rev. Mr. Allan delivered a powerful address, choosing as his subject, "Victory and Peace."

Robt. Thompson, of Calgary, who assumes the principalship of the Coleman school on Jan. 1st, was a visitor in town this week. He expressed himself highly gratified with the appearance of Coleman and its active business places.

Municipal and School Nominations Quiet

Will Be Contest for Councillors Only.

The nominations on Monday passed off very quietly with the following result:

Mayor.—J. Johnson, acclamation.

Councillors.—John A. McDonald, Wm. Fraser, D. Davies, J. S. Pizer and William Thompson. As there were only four vacancies an election is necessitate which will be held on Monday, Dec. 9th, from 10 a.m. to 7 p.m. in the council chamber where Returning Officer Ford will receive the ballots, of the duly qualified electors.

The school trustees were all elected by acclamation Wm. Fraser, Alex. Cameron and John Unsworth being the choice to fill the three vacancies, the two former being re-elected while Mr. Unsworth is a new member of the board.

Card of Thanks

Dear Friends—We would like to extend our heartfelt thanks to all those who sent letters of sympathy to us. One letter we wish particularly to mention was from Rev. Mr. Murray, late of Coleman, but now residing at Ingersoll, Ont. It goes to show that Mr. Murray has the welfare of Coleman at heart and that he does not forget old friends. We again thank all those who extended a word of comfort at this time of our bereavement. MR. and MRS. J. HADFIELD.

W. L. Ouimette is offering some specials for Saturday, Monday and Tuesday. See Advt. and bills.

Having made a clean-up on boys goods Cecil Gower is out with pay day specials worth noting.

Eleven Mennonites from the Swift Current district arrived in Regina Monday destined for the provincial jail there, where they will spend the next ten days for failing to send their children to the public school.

A Finn named John Krövisto living fifteen miles north of Rocky Mountain House, while suffering from mental aberration due to influenza, wounded his wife with a rifle and fatally shot himself.

The weather forecast for Alberta today shows that very cold weather is expected. The temperature last night went down to 5 above, while the high was 48. Local snow flurries are forecasted, but the general forecast is fair and very cold.

In the opinion of the Hon. W. M. Martin, premier of Sask., there is still a possibility that the Dominion government yet might do something in connection with handing back to Alberta and Saskatchewan their natural resources.

A scheme of federal aid and construction and improvement of highways was one of the subjects discussed at the inter-provincial conference and A. W. Campbell, and recently deputy minister of railways and canals has been appointed to report as to the function which the Dominion government should exercise in connection with the matter.

SAM MOORE - PROPRIETOR

Revelation

"In the courtyard of a monastery years ago, a pious monk planted a rosebush. In spite of his tender care it never blossomed. The gentle priest brooded over it. Considering it an evidence of divine displeasure. One day, as the legend runs, he prayed at the side of the bush that it might bloom. In the midst of his supplication a gentle voice bade him 'Be at Peace,' and looking up he saw the Holy Mother standing before him—and lo, a miracle—the rosebush had burst into bloom." Australian Carbide Plant

Turning Out a Product of Superior Quality

In view of the shortage of carbide in Australia, importance is attached to the steps taken in Tasmania by the Hydro-Electric Power and Metallurgical Company, Ltd., for the manufacture of that product. The plant, which recently commenced operations, is capable of turning out 5,000 tons a year, 3,500 horse power of electric current, supplied by the government electric power works, being used in the main. The Swedish carbide previously held the distinction of being the best in the world, but the Tasmanian article is claimed to be greatly superior. The consumption of carbide in Australia is 13,000 tons a year, and as soon as circumstances permit, the Tasmanian plant is to be duplicated. A Swedish expert is in charge of the operations.

The Wrong Bottle

Warrior From Palestine (whose baby is about to be christened, and who has a bottle of Jordan water for the purpose)—Eh, by the way, mister, I've brought this bottle. Minister—No! The bottle, I said! After the ceremony I'll be very pleased—London Opinion.

IT REALLY DOES

end pain, prevent festering and heal. This is why those who have once used Zam-Buk will never use any other ointment.

Miss Viola Hahley, of Upper Goshen, N.B., writes: "My sister had sores on her foot that commenced like boils and then discolored. She suffered such intense pain that she could not wear her shoes and had to remain in the house. We commenced using Zam-Buk and the pain soon disappeared. Then the sores stopped discharging and before long the places were entirely healed over. We shall never be without Zam-Buk again."

For eczema, blood-poisoning and piles, cuts and burns Zam-Buk is equally good. All dealers, 50c box.

Terraced Rice Fields In the Philippines

Ascend a Thousand Feet Above the Level of River

When Magellan, sailing under orders from Charles I, discovered the Philippine Islands in 1521 (although certain records of the Chinese show that they had been before him) he found the natives cultivating rice as practically their only form of agriculture; and from that time on up to the threshold of the twentieth century, half the land under cultivation in all the archipelago was devoted to rice. Since then, owing to the development of the hemp and sugar industries and the taking off of labor to build railways and for public works, rice production has rapidly diminished; so that now, the Filipino, who for centuries raised all the rice upon which the people of the whole archipelago chiefly subsisted, and exported the remainder as his most important article of commerce, is importing to meet the home demand. The general primitive system, still adhered to in many provinces, is a forked stick for a plow, would waste, and work contentedly up to his knees in muddy water; and when the harvest was over, the women would go into the deep mud with rude sickles and cut the rice, threshing it with their hands.

Some of the mountain tribes, however, developed a wonderful system of irrigated, terraced fields, those of the Ilocos being notably fine. They begin by the side of a river into which streams are flowing, and the terraces sometimes ascend a thousand feet above its level, single walls often rising to a height of fifty feet. These terraces are among the "wild men" of the islands, as distinguished from the so-called Christianized tribes, upon whom they look down because of the Tagalog's physical inferiority and the oppression he has always exercised against them whenever he has had the power.

One dose of Miller's Worm Powders will clear the stomach and bowels of worms, so that the child will no more be troubled by their ravages. The powders are sweet to the taste and no child will object to taking them. They are non-injurious in their composition, and while in some cases they may cause vomiting, that must not be taken as a sign that they are nauseating, but as an indication of their effective work.

Owned Great Colony Once

Had Colonial Empire of Eleven Hundred Thousand Square Miles

Less than four years ago Germany had a colonial empire of more than eleven hundred thousand square miles, more than five times the size of the German empire, larger than Austria-Hungary, France, Great Britain, Italy and Spain put together. Mr. Dernburg has said that Germany's colonial empire would supply the home country with most of the cocoa and coffee, the cotton and tobacco, and palm oil and palm kernels.

East Africa sent gold, ivory, sisal hemp, hides; South-West Africa, diamonds, leather skins; Cameroons cocoa, ivory, palm kernels and oil rubber and timber; togo cocoa, cotton, palm kernels and oil, and rubber. Germany was but beginning her colonial apprenticeship.

She blundered in many ways, in every way, until Dernburg became minister of the colonies, yet three years before the war, the exports from her Pacific and African colonies amounted to almost \$25,000,000 a year. The African plantations, so rich in rubber, were hardly fairly begun. South-West Africa is one of the richest and cattle countries. The Germans so killed off and frightened off the natives that labor was scarce. Let us record the letter of von Frotha, "the great general of the mighty empire," to the Hereros in 1904: "The Herero nation must now leave the country. If the people do it not, I will compel them with the big gun. The German frontier is here. Herero with or without a rifle will be shot. I will not take over any more women and children, but I will either drive them back to their people or have them fired on."

Kulture in South-West Africa killed half the native population, virtually wiped out the Hereros who were either slain, man, woman and child, or forced into the desert to die of thirst. A vast colonial empire Germany had. Oppressively, cruelly, too often bureaucratically always, she ruled it. She always regarded it as a colony of advantage when to nurse military designs against her neighbors. Mr. Zimmermann's "colonial demands," cut down even to a demand for the return of Germany's former colonies, will not be too warmly welcomed at the peace congress, if there is one, and our Anzac friends will never consent to certain surrenders or restorations.

Minard's Liniment Cures Disenter

Manitoba Cattle for Great Britain

One of the foremost cattle ranches of Manitoba has just begun its annual movement of cattle, the first train, consisting of thirty cattle cars, having passed through the Union stockyards at Winnipeg last week, presumably on the way to Great Britain. This is the first part of a total consignment of one hundred and fifty cars—or approximately two thousand seven hundred head of stock—which it is reported will be forwarded overseas from this ranch. This number represents a large increase over the total of last year's consignment, which consisted of 1,500 head. In past years these cattle have always been sent to Chicago.

Hats Off to the Swiss

Men and Women Give Food Out of Their Own Store Supplies

The war is teaching us better about Switzerland, as about other countries. It is not so much a vast, incredibly rich, exuberantly resourceful land bested by its largeness on the horde of the wounded and the famishing and the expatriated. Switzerland is small, and comparatively poor, and over-crowded. Yet Switzerland is giving to the world a lesson in heroism (important) all that is given to Switzerland to be given out again. Here is a capable clearing house, a tireless distributing agency. The cross of Switzerland carries (for every small nation has carried its cross in this war) the Red Cross. When these dear, good Swiss women and men give bread and apples, coffee and chocolate to those who lean on their tender mercies, they are taking food out of their own mouths and from their own children. — Philadelphia Public Ledger.

Unless worms be expelled from the system, no child can be healthy. Mother Graves' Worm Expellent is the best medicine extant to destroy worms.

Impedimenta

A battalion was being instructed on "how to take a convoy through open country." One company was told off to represent horses, cows and wagons.

After a short halt the advance order was given and the convoy moved on—all except one man, who did not budge.

"Here you," called the major. "What do you advance?" "I can't, sir." "You can't. What do you mean?" "I'm a wagon and I've got a wheel off."—Boston Transcript.

MAKES CORNS LIFT WITHOUT ANY PAIN

Takes the sting right out—cleans 'em right off with it pain. Thousands say it's the surest thing to rid the feet of callouses, sore foot lumps, corns, etc. Don't suffer—that's foot! Buy a 25c bottle of Putnam's Painless Corn and Wart Extractor; it does the trick quickly and is invariably satisfactory. Sold by druggists everywhere.

Eighty Thousand Grocery Stores

Do Not Locate on Main Thoroughfares

Strangers in London often comment on the dearth of grocers' shops. Dry goods (drapers) shops there are abundant, and jewellers, and chemists, but if you want to buy a little homey packet of blue or a bottle of vinegar, it is really quite difficult to find a shop. The reason, of course, is that grocers do not set up shops in the main thoroughfares, and not that there is a scarcity of them. In fact, there are in England over 80,000 retail grocers' shops. There are 5,000 co-operative stores which serve 10,000,000 customers; 7,000 small shops with a roll of 24,000 customers and a large number of the old-fashioned family grocers. These figures show the magnitude of the rationing problem, and suggest that credit is due not only to the ministry of food, but to the wholesale houses and retailers for the smooth way in which the public have been supplied.

The Best Liver Pill.—The action of the liver easily becomes deranged, and sudden chill, undue exposure to the elements, over-indulgence in some favorite food, excess in drinking, are a few of the causes. But whatever may be the cause, Farnell's Vegetable Pills can be relied upon as the best corrective that can be taken. They are the leading liver pills, and they have no superiors among such preparations.

Honey Industry Developing

Wonderful Opportunity for Expansion in This Line

Though the industry has not yet developed into a very large one, many farmers in Western Canada have brought their production of honey to a very successful stage. In the alfalfa and clover fields in the irrigated areas there is a wonderful opportunity for expansion in this line, as the success of a few leaders shows. Messrs. Ferrill and Kerr, the result of whose experiment in the growth of tomatoes under irrigation on a commercial scale was mentioned in Western Canada Week of Week of September 14, claim that much of their success with this crop is attributable to the presence of bees among the plants. Mr. Kerr, the owner of the farm, expects to have half a ton of honey from his alfalfa this year from thirty hives, and hopes very soon to develop a hundred hive apiary.

Over 500 men from the

Sheldahl Isles have laid down their lives for king and country since the beginning of the war.

Rumanians Live In German Peace

Story of How the Country Is Systematically Pillaged for Germany's Benefit

A reliable informant who left Rumania early in July, 1918, has given a very interesting description of the conditions which prevail in that country and also of the German activity, which continues in spite of the fact that the country has been concluded," writes Capt. Alfred F. Osanne.

At present the Germans are pillaging the country from one end to the other. It is no exaggeration to say that everything in Rumania which can be exported has been seized and sent into Germany. Even door handles and window catches, bells and kitchen utensils have been taken away.

"But that is not all. The Germans have carried off all the linen and the civilian have been allowed to keep only two sets of underwear. A certain number of people have, however, been allowed to keep their belongings by bringing them to German officials with a liberal gift of wine. All the timber in Rumania has been taken away, the forests have been cut down and the Germans have even raised the parquetry off the floors in private dwelling houses. Each German soldier is authorized to send to his people in Germany a 10-lb. parcel of goods fished from the inhabitants' pockets, and even a higher grade officer is authorized to send to his family could not exist without these contributions.

"The final blow has been given to the country in three decrees which the king of Rumania was compelled to sign. In virtue of the first decree the 'General Directorate of Imports, Exports, and Provisioning' was created. The powers of this directorate extend over the whole economic life of the country. For instance, no one is able to import or export merchandise without the consent of the directorate, which is thus able to close the Rumanian market to the outside and direct all Rumanian products toward the central empires. The directorate has also the power to decide, without any right of appeal, how the soil must be cultivated; it has the power to order the deportation of the entire agricultural population from one region to another; it imposes fines upon those inprisonment upon a recalcitrant population; and finally, the decree insures the exercise of these powers for a term of 10 years. The head of this directorate is a 'creature' of the Germans, one Dr. Antipa, who has been put on the footing of a minister of state. The second decree lays down that the whole of the rural population is to be put to work. This decree decrees all males between the ages of 14 and 60 and all females between the ages of 14 and 50. Each peasant is only able to attend to his own land and a certain number of days; the rest of his time must be devoted to the auctioneer, who is to be paid for the work he does at a ridiculous wage. The decree further enables the authorities to remove what agricultural machinery it sees fit to remove from any owner and use it on other land. The general directorate is thus able to ruin whomever it pleases.

THANKFUL MOTHERS

Mrs. Willie Theriault, Paquetville, N. B., says: "I am extremely thankful that I tried Baby's Own Tablets for my baby. Through the use of Baby's Own Tablets I feel as if I cannot recommend them too highly." Baby's Own Tablets break up colds and simple fevers, cure constipation, colic and indigestion, make teething easy. In fact they cure all the minor ills of infancy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Spelling It Backwards

A Soldier at Twelve

A smart-looking lad, who it was said, had enlisted when he was 12 years, appeared at the Guildhall, London. His name was George Dorrington, and he was charged as an absentee from the 14th South Lancashire regiment. He gave his age as 19, but it was said he was now only 16 years. On the sleeve of his tunic he had two wound stripes and the red and three blue ribbon chevrons. It was mentioned that he was wounded in the retreat from Mons, and had fought at Ypres. Dorrington, who admitted that he had overstayed his leave, was handed over to an escort.

The Teacher Taught

"Another difference between plants and animals," said the teacher, "is that plants are not susceptible of attachment to man as animals are." "How about burrs, teacher?" piped a small boy who had passed the summer in the country. — Boston Transcript.

GIN PILLS FOR THE KIDNEYS

Have restored thousands of Canadians to health by strengthening and banishing their kidney or bladder troubles. The National Drug & Chemical Co. 275 Main, 50c & 60c box.

Food will win the war; don't waste it.

Left-overs are made palatable and nourishing by the addition of a small quantity of **BOVRIL**

At times during heavy bombardment the army commissariat becomes so disorganized that ordinary food is unobtainable for days.

During such times as this the value of a convenient and concentrated food that may be carried and handled easily, cannot be over-estimated.

Active Service Chocolate answers all the requirements of such a food. It is the most nourishing and wholesome chocolate manufactured. If you are unable to obtain this chocolate in your locality, write us. We will see that you get it.

Sold in 5c and 10c sizes.

COLEMAN, ALBERTA, FRIDAY, DEC. 6, 1918

Editorial Comment

NOTES AND COMMENT

Whether Union Government is necessary or desirable now that the war is over is being considerably discussed. Hon. Robert Rogers and a coterie of Toronto Conservatives think the Conservative party should again get into shape, while, Hon. Walter Scott, the Regina Leader and others would like to see the Liberals organized on the old basis. The outcome will make very little difference to anybody.

It would appear that matters have reached a deadlock in reference to the transferring of the natural resources to the western provinces, Ontario and Quebec demanding large increases in subsidies should the request be granted. As there appears to be no chance of an agreement being reached between the provinces the administration of natural resources here will likely remain with the Dominion.

From statistics compiled from a registration of 230,000 soldiers in 1917 the government reaches the conclusion that out of these 105,000 will want to go on the land. Should this proportion extend over the whole expeditious force there will be a sudden increase of the farmers when the men arrive home. About half of those who go on the land may remain there, but even these would make a big addition to the productive population. The remainder of the men either have places ready for them or prefer some other occupation to farming.

Three and a half million pounds of Pacific flatfish have been sold in Canada since the Canada Food Board established the fishery in March, 1918. Prior to this time, these fish were regarded as being worthless by fishermen. The manner in which the public have taken to Pacific flatfish has exceeded all expectations, and the fishery is now established as a permanent Pacific industry. One British Columbia firm shipped 100,000 pounds of flatfish to market last week.

The price of wheat is likely to bring next year is now beginning to attract attention. The United States has guaranteed the price of the 1919 crop on the same basis as this year's crop. Canada, however, has made no guarantee of price and experts are figuring that with the large stocks available in Australia, India and the Argentine that prices will fall to normal by next fall. Great Britain has 150,000,000 bushels of wheat in Australia, bought at \$1.16, and 50,000,000 bushels in the Argentine bought at \$1.46. The only thing that could maintain the price at its present height, it is claimed, would be lack of tonnage to deliver the wheat from distant countries. It is highly improb-

able, however, but that vessels will be found to do the carrying and in that case how is the Dominion government going to meet the demands of Canadian farmers.

The Chinese government has decided to destroy the remaining stocks of opium in Shanghai in reference to Anglo-American representations. 300 chests are to be burned in the presence of Allied representatives.

It would appear that food conditions are not nearly so bad in Germany as Dr. Solf would like to make out: A dispatch from Switzerland says that Germany has enough food to last until April. A few of the officers who have been in charge of prisoners should be removed where no food is wanted.

All kinds of guesses are being made as to Sir Clifford Sifton's reason for retiring from the Conservation Commission. No one has yet suggested that he purposes becoming the first president of Germany. Hardly any other job has been overlooked.—Lethbridge Herald.

The Canadian Council of agriculture in its economic platform urges, drastic changes in existing tariff laws, extension of the British preference, proclamation of the reciprocity pact of 1911, and the placing of food, fuel, agricultural implements and many other necessities of life upon the free list.

To Break Grip Of Speculators

The Dominion government's land settlement policy as submitted to the representatives of the provinces, seems to have found favor in the eyes of the latter. It provides for the breaking of the grip of the speculator who holds land that he will not cultivate. It provides also for the sale of land through a system of long term payments. A feature of the policy is that it is to be worked out through the co-operation of the federal and provincial governments, the former providing the necessary funds through the use of its credit. In short, provincial government through money supplied by the Dominion purchase land which they, in return, will sell in easy terms to intending purchasers. The soldiers' settlement policy should be readily taken up by the returned men, for information has recently been published, showing that a much larger number of them desire to go to the land than had hitherto been imagined. Out of 236,000 who were asked their intentions, 105,000 said, "to the land for us"; of these, 65,000, or 64 per cent., expressed a desire to go west, and it is believed that this percentage

A Message to the Young Men of Canada

Canada needs Trained Men and Women! Whatever be the task confronting the nation, in war or peace, Canada is always in peril of failure so long as the young people of the country are economically unfitted for their tasks.

Never were opportunities so great. Thousands of good-paying positions are waiting in every field of endeavor for men and women trained to fill them—in offices, stores, shops, factories, mines, railroads, on the farms—in all lines of technical, commercial, and agricultural work.

For over 26 years the International Correspondence Schools have been training Canadians. Thousands have been helped to bigger careers through the I. C. S. plan. 6500 are getting ready right now.

Many of the largest employers in the country are interested in the work of the I. C. S. in Canada, and, at their request, are being informed regularly concerning the progress of I. C. S. students among their employees.

You can win success with the aid of the I. C. S. J. F. Parker, of Winnipeg, climbed from a \$40 a month job to a \$6,000 a year income as a Contractor.

Wm. T. Griffiths advanced from carpenter to Superintendent of Construction for Lyle and Sons, Ottawa.

E. H. Monro, Chief Engineer of the Dominion Textile Company, Windsor, and hundreds of Canada's foremost engineers, advertising managers, draftsmen, electricians, and chemists prepared for promotion in spare time through I. C. S. courses.

The I. C. S. can help you, no matter where you live, what hours you work, or how little your schooling. Mark and mail the coupon today—it will not obligate you in the least but will give us an opportunity to show you how to prepare for a successful career.

is fairly representative of the whole number overseas.

Hundreds of People Winter at Coast.

Delightful Climate Lures Prairie People.

Scores from the prairie and middle west are wintering this year at the Pacific Coast, lured by the delightful temperate climate, and the wholesome out-of-door life and indoor social activities of those two charming cities, Vancouver and Victoria.

Golfing, mountaineering, and hunting, fishing, boating, auto-mobiling winter and summer on beautiful scenic roads lined with towering cedars and firs, are only a few of the popular out-of-door pastimes awaiting you.

Beautiful Pacific Coast bungalows may be rented at reasonable rates, or if hotel life is desired, Vancouver and Victoria boast two of the very finest in Canada—the Hotel Vancouver at that city, or the Empress Hotel at Victoria.

Imagine this beautiful trip through the Canadian Rockies via Banff on the main line of the Canadian Pacific Railway where five hundred miles of magnificent scenic beauty is passed. You'll like either of the two trains which operate daily, equipped with electric lighted sleepers, roomy tourist cars, dining cars, and luxurious observation cars.

Many take the seven-day cruise each way on the waters of the Pacific to Honolulu, "Paradise of the Pacific." You'll be delighted with the customs and conditions in those beautiful mid-Pacific Islands.

Illustrated literature and complete particulars will gladly be given without obligation by any Canadian Pacific representative.

Both the Alberta Foundry and the Medicine Hat Pump and Brass Works of Medicine Hat, have received instructions to discontinue making shells, and the latter plant was closed down in the munition department last week.

LOCAL AND GENERAL

Category B men will return to Canada from England very soon.

Capt. G. B. Lockhart, a former resident of Fernie and Michel, died in Vancouver.

T. W. Derbyshire, of Coleman is reported in today's casualty lists as having been wounded.

The brewing of beer ceased in the United States on December 1st. Looks like a dry time ahead.

Cancellation of U. S. war contracts since the armistice was signed were estimated by Secretary of War Baker to aggregate \$2,600,000,000.

Great Britain had to threaten to resume fighting if better treatment of prisoners was not forthcoming from the Germans. Strange how the British element has such a hold on Germans.

The Dominion revenue for the fiscal year ending March 31, 1918, as a result of the success of the business profits taxation income and other taxes will reach nearly three hundred million dollars.

The death occurred at her home in Calgary of Mrs. W. E. Graham, wife of Dr. W. E. Graham, who is overseas with the medical corps. She was a sister of the wife of the premier of Saskatchewan.

Food Restrictions

Are Removed

Restrictions removed on the amount of flour held by wholesalers, retailers or householders.

The use of substitutes by bakers, hotelkeepers and restaurateurs and householders is no longer compulsory. Sandwiches may now be served by eating-places during the noon meal hour.

There is no longer any bread restrictions in hotels or restaurants. Doughnuts, shortbread, crullers and biscuits may now be made and sold by bakers or restaurateurs.

Cakes may be iced in future, provided not more than 40 pounds of iced cake.

Breakfast foods may again be manufactured. Conservation of beef and sugar is still in force and is of prime importance.

Canada Food Board Thrift Suggestions

Do not get the idea that the end of the war means the end of food saving. Today not only our soldiers and allies must be fed but the people of vanquished countries and even some of the neutrals, making a grand total of something like 250,000,000 people in all. Food conservation must go on with added vigor. Winter is the season of conservation.

If you purchase food which is brought from a distance, you must pay the transportation costs. This is why oranges, grape fruit and bananas cost more than apples. There is no doubt that the flavor of the fruit enters into the market demand, but the food value of apples is higher than that of oranges. The same is true of vegetables. Green vegetables should have a place in every day's dinner. Buy those which are reasonable in price and grown locally.

The waste in the preparation of potatoes which are peeled before being cooked is estimated by food experts to be at least 25 per cent. The waste is minimized when they are boiled in their jackets or baked. Try scrubbing them very clean with a brush and when they are dry, rub the surface with a little fat, then bake them. Write to the Canada Food Board for its free booklet on potatoes.

Credit Scheme For Purchases From Dominion

Sir Thomas White declares the statement that Canada will offer to forego all claim for indemnity against Germany if a billion dollars is expended in Canada for materials to be used in the reconstruction of northern France and Belgium is without foundation.

The question of indemnity against Germany has no bearing upon the right which Canada asserts of her participation with the other Allies in business arising out of the restoration by the Allies of France, Belgium, and other ruined countries. The position is that the Prime Minister took with him to England a memorandum prepared by the Minister of Finance offering an extensive credit in Canada for the purchase of materials and supplies to be used in the work of reconstruction.

In return for this credit, which would be expended entirely in Canada, the Government would accept the securities of an international commission, backed by inter-allied credit or the securities of one or more of the nations concerned. Such securities might be collaterally secured by any indemnities to which the nations in question might be entitled from Germany.

So far as the Dominion is concerned there would, therefore, be no additional interest charges owing to the increase in national debt incurred in establishing the credit here.

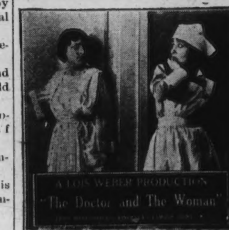

The interest which the Dominion would receive upon such a credit would be equivalent to the interest which the Dominion would pay upon loans issued to the Canadian people for the purpose of raising the money. The Minister of Finance has received a cable from Sir Robert Borden stating that the proposal has been taken up with the British authorities. Sir George Foster, Sir George Perley, and Messrs. Jones, Robertson, and Draper are acting as a committee to forward the interpretations of Canada in this regard.

Our Boys ARE Coming Home

A few pieces of new FURNITURE add up considerably to the cheerfulness of the home, while a touch to the old furniture, Linoleum and Floors with Kyanize will brighten up things in general.

We carry everything in the above line.

THE COLEMAN HARDWARE CO.,
Successors to H. G. Goodeve Co. Ltd.

Flour & Feed

Coleman Flour and Feed

A. BECK, Manager.

Worth Protecting

A good article is worthy of a good package. A rich, strong, delicious tea like Red Rose is worth putting into a sealed package to keep it fresh and good.

A cheap, common tea is hardly worth taking care of and is usually sold in bulk.

Red Rose is always sold in the sealed package which keeps it good.

Watches

W. L. OUIMETTE

Local and General.

The weather has been de-
cidedly unfavorable for rink
purposes, but a change for the
better is in sight.

It is anticipated the hospital
in the school will close at al-
most any time now. Mrs Barnes
and her assistants have had a
long siege of it.

Regina, Dec. 5.—Hon. George
Langley stated today he was
strongly of the opinion that the
price of wheat for the Canadian
crop of 1919 should be fixed at
the American level of \$2.20 to
avoid the discontent that would
follow in Canada if this action
was not taken.

The Canadian Victory loan
total to date as announced by
W. S. Hodgins today is \$687,077-
570, which is the final total for
the loan, the number of sub-
scribers was 1,067,789. Last year
the total for the loan was
\$421,104,960 with 874,331 sub-
scriptions.

Remember to do your Christ-
mas shopping early this year.
The good things go first.

Washington formally became
a "bone dry" state at midnight
Wednesday with the issuance
of a proclamation by Gov. Lister
announcing the passage at the
at the November election of
the prohibition referendum.
This brings to a definite end of
the liquor permit system which
was nullified by the state legis-
lature.

this Christmas.

Remember we handle the best Bread and Cake in Town.

FRANK CELLI, Coleman.

Almost as many of the peo-
ple of Canada died of tubercu-
losis during the four years of
war as there were Canadian
soldiers killed in battle during
the same period, while the num-
ber of civilians at home strick-
en with the great white plague
during the four years nearly
equals the number of Canadian
soldiers reported sick and wound-
ed in the casualties for the
entire period of the war.

The Canadian Council of
agriculture in its economic
platform urges, drastic changes
in existing tariff laws, extension
of the British preference, pro-
clamation of the reciprocity
pact of 1911, and the placing of
food, fuel, agricultural imple-
ments and many other neces-
saries of life upon the free list.
